

**STATE OF MINNESOTA  
MINNESOTA ENVIRONMENTAL QUALITY BOARD**

**In the Matter of the Proposed  
Adoption of Amendments to  
the EQB Power Plant Siting  
Rules**

**NOTICE OF  
HEARING**

Proposed Amendments to Rules Governing the Siting of Large Electric Power Generating Plants and High Voltage Transmission Lines, Minnesota Rules chapter 4400.

**Public Hearing.** The Minnesota Environmental Quality Board (EQB) intends to adopt rule amendments after a public hearing following the procedures set forth in the rules of the Office of Administrative Hearings, parts 1400.2200 to 1400.2240, and the Administrative Procedure Act, Minnesota Statutes, sections 14.131 to 14.20. The agency will hold a public hearing on the above-entitled rule amendments in Room 302 of the Centennial Office Building, 658 Cedar Street, St. Paul, Minnesota, starting at 10:00 a.m. on September 25, 2002, and in Alexandria, Minnesota, at the Douglas County Library, 720 Fillmore, on September 18, 2002, starting at 10:30 am, and continuing until the hearing is completed. Additional days of hearing will be scheduled if necessary. All interested or affected persons will have an opportunity to participate by submitting either oral or written data, statements, or arguments. Written statements may be submitted without appearing at the hearing.

**Administrative Law Judge.** The hearing will be conducted by (name, address, telephone number, and fax number of judge). The rule hearing procedure is governed by Minnesota Statutes, sections 14.131 to 14.20, and by the rules of the Office of Administrative Hearings, Minnesota Rules, parts 1400.2000 to 1400.2240. Questions concerning the rule hearing procedure should be directed to the Administrative Law Judge.

**Subject of Rules.** Minnesota Rules chapter 4400 relates to the permitting of sites for Large Electric Power Generating Plants and routes for High Voltage Transmission Lines. The rules implement the requirements of the Power Plant Siting Act, Minnesota Statutes sections 116C.51 to 116C.69. In the 2001 legislative session, the Minnesota Legislature significantly changed the Power Plant Siting Act; these changes went into effect on August 1, 2001. The amendments to chapter 4400 that are being proposed are intended to carry out the statutory changes that were made.

Minnesota Rules chapter 4400 applies to all phases of the permitting of Large Electric Power Generating Plants and High Voltage Transmission Lines. A LEPGP is a power plant over 50 megawatts in size. A HVTL is a transmission line with a capacity of greater than 100 kilovolts. The rules establish the requirements for submitting permit applications to the EQB and procedures to apply in reviewing and acting upon the applications. The rules establish environmental review requirements and opportunities for public participation. Based on the statutory changes, the proposed amendments establish two processes for review of permit

applications, depending on the size and type of the facility being proposed. Also, the proposed amendments recognize that project proposers may elect to seek authorization from local units of government for certain smaller projects. The proposed amendments contain a provision creating an exemption for certain existing facilities. The EQB is also proposing to repeal a number of the existing rules that are no longer applicable under the changed statutes.

A free copy of the proposed rule amendments is available upon request from the agency contact person. The proposed rule amendments are also available on the Internet at
